INSIGHTS

1. The business generated **2.30M in total revenue** from **5,009 orders**, resulting in a **total profit of 286.40K**.
2. The overall **profit margin is approximately 12%**, indicating that the business is generating positive returns while maintaining strong sales performance.
3. Revenue has shown a consistent upward trend over the years, reaching its highest level in **2017**, which suggests sustained business growth.
4. The **West region** is the highest-performing region with approximately **725K revenue**, followed by the **East region** with around **679K revenue**.
5. The **South region** contributes the lowest revenue (approximately **392K**), highlighting a potential area for market expansion and improvement.
6. **Technology** is the leading product category, generating approximately **0.84M revenue**, followed by **Furniture (0.74M)** and **Office Supplies (0.72M)**.
7. A small group of products contributes a significant share of total revenue, with **Canon ImageCLASS**, **Fellowes Paper**, and **Cisco TelePresence** among the top-performing products.
8. Revenue distribution across categories is relatively balanced, though Technology maintains a competitive advantage in overall sales contribution.
9. The top 10 products collectively account for a substantial portion of revenue, indicating the importance of high-performing products in driving business growth.
10. Regional performance analysis suggests that sales opportunities and customer demand vary significantly across different geographic markets.

RECOMMENDATIONS

1. Increase investment in the **West and East regions** to capitalize on strong market demand and maximize revenue growth.
2. Develop targeted sales and marketing initiatives for the **South region** to improve market penetration and revenue contribution.
3. Expand and promote the **Technology category**, as it consistently generates the highest revenue and presents strong growth opportunities.
4. Ensure adequate inventory and marketing support for top-performing products such as **Canon ImageCLASS**, **Fellowes Paper**, and **Cisco TelePresence** to sustain their revenue contribution.
5. Analyze customer purchasing patterns in lower-performing regions and categories to identify barriers to sales and opportunities for improvement.
6. Implement cross-selling and upselling strategies between Technology, Furniture, and Office Supplies to increase average order value.
7. Monitor profit margins at the product and category levels to ensure revenue growth is accompanied by sustainable profitability.
8. Use regional and category performance insights from the dashboard to support data-driven decision-making and strategic resource allocation.
9. Continue tracking yearly revenue trends to identify emerging growth patterns and proactively respond to market changes.
10. Focus on expanding successful product lines while reviewing underperforming products for optimization or replacement.
